Evidence-based guidelines for treating bipolar disorder
The British Association for Psychopharmacology guidelines specify the scope and targets of treatment for bipolar disorder. The third version is based explicitly on the available evidence and presented, like previous Clinical Practice Guidelines, as recommendations to aid clinical decision making for practitioners: it may also serve as a source of information for patients and carers, ...

Gifts in Psychotherapy and Counseling, by Ofer Zur, Ph.D.
Another type of gift in psychotherapy is that made by a third party, most commonly by the pharmaceutical industry, as part of their multibillion dollar annual marketing efforts (Zur, 2007). Historically, primarily psychiatrists have been inundated by such gifts, but as psychologists start gaining prescription privileges, the drug companies have ...

Psychotherapy for Bipolar Disorder - Psych
Sep 17, 2014 · At least 5 psychotherapy approaches for bipolar disorder have been shown to be of benefit when added to medications for the treatment of bipolar disorder, compared to medications alone. This essay will introduce you to each of these psychotherapies and show you some evidence of their success. Bottom line. Medications are not enough.

2.4 Humanist, Cognitive, and Evolutionary Psychology
Humanistic psychology emerged as the third force in psychology after psychodynamic and behaviourist psychology. Humanistic psychology holds a hopeful, constructive view of human beings and of their substantial capacity to be self-determining. This wave of psychology is guided by a conviction that intentionally and ethical values are the key psychological forces ...

The biomedical model of mental disorder: A critical
Nov 01, 2013 · The influence of the biomedical model in psychotherapy research appears to be weakening. Psychotherapy researchers are increasingly focusing on treatment process (e.g., Castonguay & Beutler, 2006), and systematic guidelines have been offered for incorporating process research into RCTs (e.g., Hayes, Laurenceau, & Cardacciote, 2008).
