Improving Educational Outcomes for Students with Technology (PDF, 243K) Liz Brooks; Other business include [presumptions associated with high-stakes testing, insufficient materials, a mismatch between teacher style and the practice, a lack of fit between the practice and other methods mandated by the school district, and teachers’ lack of]

3 Evaluation Methodologies | Evaluating and Improving

Integrating technology can seem like a formidable task to the K-12 educator. But what if there was a way to bring computers into the curriculum while saving time and engaging the learner? Online assessment can provide the regular classroom teacher with a painless and productive tool for testing with technology. Education World shows you how!
