**THE DEFINITION AND IMPORTANCE OF LOCAL GOVERNANCE**

With such an approach, local governance is concerned with planning and implementing local economic and social development processes, defining strategic vision, managing affairs, exploiting and leveraging both in areas of the public administration and those of security, public finances and justice. Naturally, good governance also applies in the private sector, since it is the expression of integrated and effective management. There is certainly no single model for good governance but it is often based on decentralisation and the key to development.

**ROLE OF PUBLIC ADMINISTRATION IN GOOD ...**

The decentralisation of political, administrative and financial, material and human resources, as well as efforts to increase popular participation, are posited as logical alternatives to older centrist state conceptions. Local governance and local development comprise the combined set of institutions, systems and processes, at the local governance structure, functions, and challenges of local governance.
